

EUCOLD

September 4, 2019

LETTER OF THE PRESIDENT

Dear Member of EUCOLD,

I would like to draw your attention to three major events for dams in Europe, which will take place from 30 September to 4 October 2019 in Chania, Crete.

- **Monday 30 Sept-Tuesday 1 October:** The Seminar "**Flood management, spillway design and public safety**" is intended for all those who are concerned about the safety of dams and power stations in operation. [Register here for the event.](#)

- **Monday 30 Sept-Tuesday 1 October:** the Mediterranean Workshop of the EU-funded project **HYDROPOWER EUROPE** is a first EU event to anticipate changes in the operation of dams in the service of the new European power system and all other water uses. [Register here for the event.](#)

- **Wednesday 2- Friday 4 October: 11th ICOLD European Club Symposium,** "The future of Dams in Europe: Prospects and Challenges in a changing environment" is a unique opportunity to develop our knowledge in the fields of: dam engineering, dam safety, climate change perspective, European directives and management of infrastructures, training our young engineers and creating a knowledge network at European level. [Register here for the event.](#)

I would be delighted to meet you there.

With my best regards,

Dr. J-J Fry
